Writing a new chapter for Chinese
international education

ABOUT US

IAC International Education Group is a comprehensive and large-scale educational technology conglomerate that integrates international curriculum development, education product research, and educational informatization services. As a pioneer and innovator in the field of international education, IAC has introduced the North American "ALTSCHOOL" elite education model (highly endorsed by Bill Gates and Mark Zuckerberg) to China. Grounded in personalized development and practical teaching, the group collaborates with outstanding educational institutions and technology enterprises worldwide. Through in-depth research across six major sectors and 13 domains, IAC has developed industry-leading core technologies for educational informatization and a high-quality, well-rounded international education system.

Since its inception, IAC International Education has been committed to providing every student with a premium, equitable platform for international academic exchange and an optimized international curriculum system. Its mission is to cultivate global citizens and future young leaders who are active learners and explorers, reflective and innovative thinkers, and individuals with a broad international perspective and a strong sense of social responsibility.

GROUP BRAND AND PROJECTS

INSIGHT ACADEMY OF CANADA

Founded in: 2013

Introduction: Insight Academy of Canada (IAC) is an accredited full-time North American high school (Ontario Ministry of Education Number: 880844) and is also certified by the College Board (CEEB Code: 826542). Each year, IAC provides curriculum system support to 27 local education boards in Canada and offers additional curriculum support to over 100 schools worldwide.

INSIGHT ELITE LEARNING CENTER

Founded in : 2019

Introduction: Insight Elite Academy is a China-based offline learning center under Insight Academy of Canada. To help every student maximize their potential and realize their individual value, Insight Elite Academy has pioneered a unique "1-on-1 Customized Training" educational model, dedicated to ensuring the healthy growth of its students.

FAMOUSEDU

Founded in : 2019

Introduction: FAMOUSEDU Competition Academy is an international competition preparation school founded by overseas high school principals, mathematics teachers, and university professors. It provides coaching and training for international competitions, closely replicating global training models. The academy shifts students away from traditional, repetitive problem-solving drills to more precise and efficient skill-based training.

GROUP BRAND AND PROJECTS

SOUTH CHINA NORMAL UNIVERSITY TOP UP UNDERGRADUATE PROGRAM (ONE-YEAR)

Introduction: South China Normal University cooperates with foreign universities to set up the one-year TOP system UP undergraduate degree program, can accept the stay service certification, official recognition, real and reliable, without going abroad to obtain a bachelor's degree, for the majority of students to save the cost of study, in the later stage to connect with the postgraduate courses of well-known universities at home and abroad, easily get a master's degree, improve their own education, enrich life experience, self-growth.

HUGMATH

Description: HUGMATH is an international curriculum system public learning platform, where students can conduct online simulation tests, access the international curriculum database and online mutual answers. We hope that through online form, students can communicate more convenient and faster, and improve their knowledge more easily and happily.

IAC NEW MEDIA

Introduction: Instead New Media is a new media operation and promotion department of Instead International School. Since its establishment, it has incubated a series of overseas study video accounts such as XiaoV's study abroad education notes and Shanghai Lao Lu Talking about studying abroad, prepared the documentary "A Tale of Three Cities", and jointly organized a number of art exhibitions with YPGS, which have won the praise of students and parents.

GROUP BRAND AND PROJECTS

Rice Lake Middle School connects with Tsinghua

Synopsis: In conjunction with Tsinghua Daoxianghu School, we have developed a number of international certification curriculum systems, and are committed to providing a high-end and equal international academic exchange platform for every student in the world.

Shenzhen Gretel Senior High School

Introduction: Jointly with Shenzhen Gretel High School, we carry out a number of international courses, tailor elite international courses for each student, and provide one-to-one training courses.

Qingdao Experimental High School

In conjunction with Qingdao Experimental High School, we carry out a number of international courses and have high student enrollment.

Shenzhen Fuqiao Senior High School

Shenzhen Fuqiao Senior High School, adhering to the purpose of "every child can succeed", provides more students with high-end and international academic exchange platform and international curriculum system.

Guangdong Lingnan College of Modern Technicians

Introduction: Guangdong Lingnan Modern Technician College, can retain the student status, Solving problems with the overseas teaching system can also help students adapt to the North American classroom in advance.

SUPPORTING COURSES

OSSD Canadian High School Credit Course Package

IAC courses are based on the syllabus set by the Ontario Department of Education, using the original Canadian high school textbooks, hiring teachers with Ontario teacher certification to teach our students. The high school academic assessments meet the standards of the Canadian Education Board. Students can obtain their Canadian high school diploma (OSSD), and by virtue of having that OSSD as well as their school academic results and language scores (IELTS/TOEFL), can enjoy the same university admission treatments as Canadian local students. Students can apply to universities in the United States, Canada, the United Kingdom, Australia, New Zealand, Hong Kong, China and other target countries and regions.

- Canadian Department of Education certification number: 880844
- Students can be awarded a Canadian high school diploma
- Grade 9-12, 64 courses, covering all subjects
- Commonwealth Education system, credits used worldwide
- OCT Ontario certified teachers teach the entire course

ACT-GAC credit course

ACT (American College Test) - GAC (Global Assessment Certificate) credit courses are led by the American Council on Education.

ACT (American College Test) is an entrance qualification test for students applying for first-year undergraduate courses. It is one of the admission conditions for American universities and one of the important bases for awarding scholarships. ACT scores are recognized by all American four-year colleges and universities. GAC courses provide "ACT Test Preparation Skills" elective courses, which can help students prepare for the ACT test. Through the study of the GAC course itself, students not only gradually develop good English academic ability, but also continuously improve and stimulate their comprehensive ability in the whole learning process, and it is easier to get satisfactory results in the ACT test and other language tests, such as TOEFL and IELTS.

- One of the admission requirements for undergraduate students in American universities
- Highly recognized by foreign universities
- Adapt to the foreign learning model in advance
- Help students develop in an all-round way

SUPPORTING COURSE

A-Level credit courses

A-Level (General Certificate of Education Advanced Level) credit course, is the British national curriculum system, is the British General Certificate of Secondary Education examination A-level course, is also the university entrance examination course for British students. The A-Level certificate is used by almost all English-taught universities as the admission standard for new students.

At present, domestic and international schools, as well as the international departments of public schools, also offer A-Level courses, and you can study A-Level courses without going abroad. Taking the unified examination, or three A and A+ grades, can lead to admission to the undergraduate colleges of world-renowned universities.

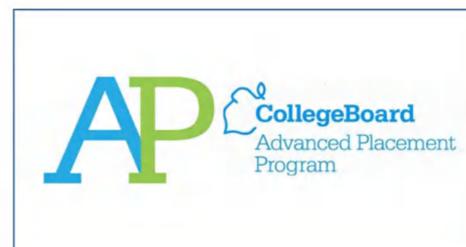

- A-Level GCSES
- University entrance exam courses for British students
- Flexible subject selection model
- Stable standardised test model
- Graded grading system

AP American Advanced Placement Course package

IAC This course is set up in strict accordance with the College Board syllabus, using the latest AP original textbooks to teach. Students who pass the academic assessment will receive AP course scores and corresponding credits. At present, more than 3,600 universities in at least 55 countries, including the world's top universities such as Harvard, Yale, Oxford, Bridge and Imperial University, attach importance to students' AP course learning experience and recognize AP courses as their admission criteria.

- College Board Accreditation number: 826542
- College Board certified transcripts will be issued upon completion of the course
- 8 courses are open to all
- Systematic explanation of the North American Advanced Placement system
- AP teacher training and remote assistance

Training courses for international competitions

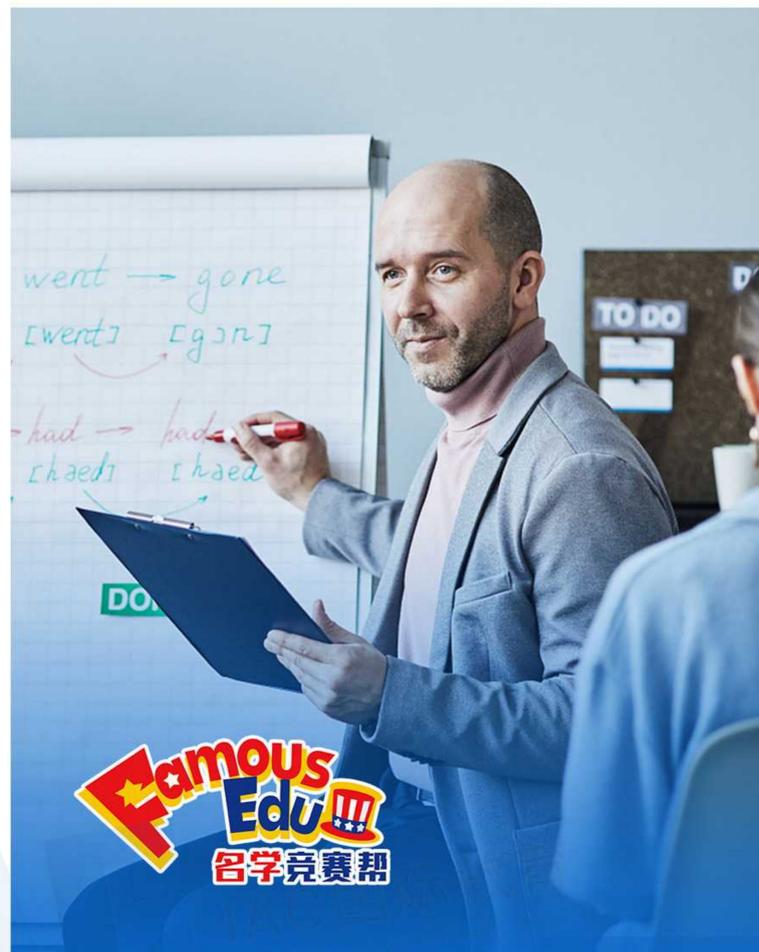

The IAC International Competition training course is based on the North American secondary education syllabus, and is specially engaged by a team of top international teaching experts to deeply explore the teaching system of international competition, specially tailored for students in grades 3-12. The course is based on the original North American teaching materials, which can further improve students' academic ability, while taking into account English learning, so that students have a pure North American logical thinking. Through the international competition training course, students will acquire the core qualities of the 21st century such as language ability, subject knowledge and critical thinking ability, and reserve the core competitiveness for future development.

FAMOUSEDU

FamousEdu Competition Academy is an international competition preparation school under the Insight International Education Group. Leveraging the resources of Insight Elite Academy and North American teachers, it provides a comprehensive "three-in-one" service model, encompassing customized competition plans, international competition training, and participation assistance. From the start of preparation, the academy offers students professional coaching that replicates international training models. It delivers full-chain professional competition services for Chinese students, transitioning them from traditional, repetitive drills to more precise and efficient skill-based training.

Since 2013, FamousEdu Competition Academy has annually prepared numerous students for the Canadian and U.S. National Olympiad Teams. Many exceptional students have excelled in various international competitions, achieving outstanding results.

COMPETITION ACTIVITIES

International competition

IAC is committed to bringing international academic competitions and exchange programs that are advanced in educational philosophy, forward-looking in academics, and influential globally to Chinese youth. These initiatives aim to enhance students' scientific literacy, broaden their international horizons, foster well-rounded character development, and help them become global talents capable of adapting to the challenges of globalization. IAC can assist schools in establishing competition centers for over 100 international competitions across five major disciplines (Mathematics, Physics, Chemistry, Biology, and Computer Science) for students from elementary to high school. Additionally, IAC organizes official overseas study programs provided by competition committees.

INSIGHT ELITE LEARNING CENTER

IAC Inside Distribution map of regional centers in China

INSIGHT ELITE LEARNING CENTER is the China-based offline learning center under Insight Academy of Canada (IAC). IAC provides curriculum system support to 27 local education boards in Canada and offers additional curriculum support to over 100 schools worldwide. Leveraging IAC's strong educational resources, Elite Academy has rapidly expanded across cities in China, including Shanghai, Guangzhou, Shenzhen, Chongqing, Fuzhou, Zhengzhou, Foshan, and Chaozhou. Elite Academy has achieved outstanding results in various programs, including OSSD credit courses, AP courses, ACT-GAC courses, A-LEVEL courses, international competition courses, middle school synchronized courses, literature publishing, and science and innovation academic background enhancement projects. Annually, it helps nearly 10,000 students from China and abroad successfully gain admission to the world's top 100 universities and has trained numerous students for the Canadian and U.S. National Olympiad Teams.

INSIGHT ELITE LEARNING CENTER

The characteristic school-running mode of "1-to-1 customized training"

Oxbridge, American Ivy League schools are a must for every outstanding student to apply for study abroad, and TOP50-100 are popular options for everyone. From the beginning of each student's admission, InD will carry out comprehensive scientific and reasonable planning for all enrolled students. According to each child's psychological condition and learning level, InXD will develop suitable learning methods and planning for children, and equip him with a senior senior high school teacher who graduated from professional normal class to accompany him throughout the whole process, so that students can maximize their improvement. To ensure that every student can go to an overseas famous school that matches his ability and can graduate smoothly.

Guaranteed——

Admission results 1 on 1 program

According to each child's psychological condition and learning level, InD develops suitable learning methods and education planning for children, to ensure that every student can go to an overseas famous school that matches their ability and can successfully graduate.

Ensure the learning——

Experience 1 to 1 teachers

IAC will provide each student with a senior senior high school teacher who has graduated from a professional teacher class to accompany them throughout the whole process: to cultivate students' good study habits, ensure students' physical safety and mental health, or accompany them to meet more difficult academic challenges.

Guaranteed for——

Scheme 1 to 1 planning

According to the students' own ability and target institutions, IAC sets different curriculum learning systems and schedules for different children, so that all the students who come to Instead can truly achieve success.

For the students who have the ability to impact Ivy League G5 Offer ACT and AP courses

For students who have the ability to enter the world's top 100 Students at elite schools offer ACT and OSSD curriculum system

For the ability to be in the top 150 in the world OSSD is offered to students at elite schools Program System

LEARNING CENTRE

INTERNATIONAL EDUCATION EVENT ORGANIZATION

Insight Academy of Canada has supported students in organizing a variety of activities, ranging from collaborating with international charity organization YPGS to bring therapy dogs into schools, to hosting modern art exhibitions showcasing student creations. Insight Academy has provided extensive support and promoted these events comprehensively to ensure their success.

YPGS INTERNATIONAL CHARITY ORGANIZATIONS

Leveraging the extensive influence of educators from the North American public education system and the exemplary role of alumni from prestigious overseas universities, Insight Academy established and operates the international charity organization YPGS. The organization has initiated activities such as art exhibitions and therapy dog visits to schools. By promoting the beauty of charity through education, YPGS fosters educational exchange and cross-cultural communication between China and the West. It also helps more students and parents understand the value of international education while gaining enriched educational experiences.

EDUCATION INFORMATIZATION

Educational digitization is a vital component and strategic priority in the nation's informatization efforts, as outlined in the "National Medium- and Long-Term Education Reform and Development Plan (2010-2020)". In alignment with these requirements, Insight Academy has consistently been dedicated to the development of digital campuses.

Introduction to Digital Campuses

IAC International Education prioritizes a people-centered approach to education, drawing from practical experience and grounded in teaching realities. Adhering to the philosophy of "revolutionizing traditional education models to cultivate high-quality international talent," IAC is committed to leveraging technological innovation and refined services to actively promote equitable access and innovative development in international education.

Since its establishment, IAC has focused on addressing key challenges in the allocation of international education resources and faculty. By introducing the "ALTSCHOOL" educational philosophy, IAC has integrated education innovation with the power of the internet and big data to establish small-scale, personalized schools centered on individualized teaching.

As a new model of "ALTSCHOOL" in China, IAC International Education provides a suite of international-grade tools and systems, including a learning management system, a flexible class scheduling system, a unified multi-national teacher management platform, a real-time parent-teacher communication system, AI-assisted teaching and adaptive learning systems, and a big data-based error analysis and feedback system. Leveraging the power of educational informatization and technological innovation, IAC focuses on high-quality international education resources. With a team of over 300 professionals, extensive curriculum resources, and a personalized training model, IAC fosters the deep integration of technology and education, enabling the interconnection of educational resources across countries. It also provides training for teachers to enhance their proficiency in information technology applications, thereby improving management efficiency, innovating teaching models, and ultimately achieving personalized and tailored learning. This ensures that every child has access to equitable and high-quality international education.

With a strong sense of purpose and an unwavering commitment, IAC International Education remains devoted to advancing the field of education services, driving innovation, collaboration, and progress within the international education sector.

DIGITAL CAMPUS - PRODUCT INTRODUCTION

International Curriculum System Public Learning Platform

Online Mock Tests: A collection of carefully selected questions curated by international curriculum students, enabling knowledge reinforcement through online mock tests.
International Curriculum Resource Library: A curated collection of premium resources from international curriculums, providing ample knowledge support for more efficient learning.
Online Collaborative Question-Solving: Facilitating quick and convenient exchanges for solving complex problems through collaborative efforts, making learning and knowledge improvement easier.

HALO A+ International Education Cloud Platform

HALO A+ is an international education cloud platform designed from an educational and teaching perspective. It addresses challenges such as "non-standardized overseas teaching materials" and "low utilization rates of electronic teaching tools." By digitizing teaching resources and collaborating with experts from various fields, the platform offers students a comprehensive closed-loop solution encompassing "learning, practice management, and assessment."

Parent-Teacher Interaction Tracking System

Smart Attendance Management Platform: Utilizes contactless long-range card reading for automatic attendance tracking, generating reports and sending notifications to parents via SMS.
Parent Version of the Parent-Teacher Service Platform: Provides access to attendance records, homework details, grades, notifications, and student comments.
Teacher Version of the Parent-Teacher Service Platform: Includes basic configuration, user and permission management, course setup, card management, notification management, and student information management.

Campus Information Management System

Academic System: Supports dual-teacher classes, flexible class scheduling, course selection, and full-service operations, with a total of 27 functions.
Management System: Handles student records, enrollment status, teacher management, and dual-teacher appointment scheduling, with a total of 42 functions.
Campus Management: Covers dormitory management, internships, and assessments, with a total of 22 functions.

Canvas(IAC Future Classroom Learning System)

· A learning management system (CANVAS) designed to comprehensively address the needs of students, teachers, and the teaching process from multiple perspectives.
· Effectively solves challenges associated with "flipped classrooms," "dual-teacher classrooms," and "online classrooms."
· Ensures international teaching resources are "shared," "securely and durably stored," and "transparent."
· Benchmarked against globally recognized LMS software and customized to better align with the unique characteristics of Chinese education.

Dual-Teacher Live Classroom

· Features high capacity, strong stability, and excellent collaboration, meeting the needs of joint teaching across different time zones/regions.
· Supports multi-party HD video interactions between teachers and students, rapid data sharing, text chatting, and file transfer within the classroom for an interactive live teaching experience.
· Compatible with multiple login modes, including PC, mobile, and tablet.

ACRM

Innovative Model: Supports drag-and-drop functionality to create various forms, such as event registration, surveys, voting, and payment collection.
O2O Closed Loop: Covers the entire process from launching and promoting marketing events to viral growth, data accumulation, management, and analysis.
Multi-Environment Integration: Seamlessly connects with apps like WeChat and QQ.
